Hello Fellow Players:

Now is a great time to work on and improve your :

- Location
- Speed
- Movement
- Spirit

I know from experience that being a pitcher is exciting, demanding and a whole lot of fun.

I know that the time is now to work on your skills and *emotional readiness* as you prepare for the 2010 softball season. It takes hundreds and hundreds of pitches and many hours of hard work and dedication to excel in our sport.

I am working with other great coaches at Playball Sports in Toms River, providing private pitching lessons and softball instruction. If you are interested in continuing to **work on your game** or if you are interested in getting started in the game as a pitcher, give Playball a call.

I look forward to working with you.
